

**February 14–18, 2005**

---

## **Justice Information Board Meeting**

The Board met on February 15. Ten members/designees attended. They heard presentations from Trever Esko on King County's new Booking and Referral Service and from me on JINDEX, SOP, Electronic Citations and the upcoming Byrne and NCHIP grants. The Board voted unanimously to ask the Technical Advisory Group to provide it with recommendations at the next meeting, which is scheduled for March 15<sup>th</sup>. The state's NCHIP application is due April 1. I have posted a [solicitation and an updated JIN Decision Package](#) to the JIN website. Proposals are due on March 5<sup>th</sup>.

## **JIN Data Exchange (JINDEX)**

We met with representatives from Microsoft to discuss the proper hardware and software configuration for the JINDEX. Given the performance requirements and budget constraints, it appears that a four-machine configuration (2 BizTalk, 2 SQL) is the optimal solution. As soon as we get answers to a couple of specific pricing questions from Microsoft, we will begin procurement.

I also received a draft of the Baseline Requirements document today, which provides greater detail about the specific elements to be implemented for JINDEX. We have scheduled design sessions with AOC and WSP for next week.

## **Summary Offender Profile (SOP)**

I was informed yesterday that Templar had resolved connectivity problems with the production server at AOC. Unfortunately, my attempt to run a query yielded a series of error messages and the developer has asked AOC to run some more SQL queries for validation.

On a more positive note, I have received the SOP source code and passed it on to the Project Team at Online for review. A Templar architect will be here next Thursday for a code walkthrough.

## **Electronic Citations**

The House Criminal Justice and Corrections Committee held a hearing [HB 1650](#) on Tuesday. Although they were generally receptive to the bill, WASPC and the Washington Defenders Association (WDA) differ on the need for language articulating the right to an identification hearing and the Association of Washington cities wants to preserve the officers' right to compel signatures. The Committee has [scheduled](#) the bill for executive session next Tuesday at 1:30.
